STRUCK BY LIGHTNING

Large Stock Barn of Rev. J. G. Livingston Burns to Ground.

Lightning struck the large stock barn on the farm of Rev. J. G. Livingston, in the Sugar Grove section, last Wednesday afternoon, set it on fire and completely destroyed it. All of the well known preacher's farming implements, and machinery, a wagon, buggy, buckboard and all of his harness were destroyed. About the only thing of value which was rescued from the blazing structure was a horse, which got out and ran off. The damage will amount to about \$1,000. This hits Mr. Livingston very hard for he carried no insurance whatever on the barn or contents. Neighbors came to his assistance when they learned of the fire but the barn burned very quickly and there was no adequate means to successfully combat the flames.

It pays to keep your property of all kinds insured in the old reliable companies represented by Jesse D. Wear, the Insurance Man, of Stanford.

C. N. Smith Grand Commander.
The Knights Templar Conclave adjourned its annual session at Danville Thursday night with a grand ball. A host of visitors from all parts of the state was on hand during the ball and meeting and were given royal entertainment by the good people of Little Britain. Charles N. Smith, of Ryan, Grand Commander, of Danville, was honored by being elected Grand Commander. Next year's session will be held at Frankfort. It was estimated that 10,000 people witnessed the parade Wednesday afternoon. It was a magnificent spectacle with the host of marching knights in full panoply, accompanied by something like a dozen bands.

Deaths in Madison

Joseph Maupin, an ex-Confederate veteran and one of the best and most substantial citizens of the Kingston section of Madison county, died Saturday. Mrs. John Jones is dead in the Million section of infirmities incident to old age. Mrs. Settle, of the Big Hill neighborhood, died in the Berea hospital from injuries received in a runaway of several weeks ago.

Danger to Children

Serious illnesses often result from lingering coughs and colds. The hacking and coughing and disturbed sleep rack a child's body and the poisons weaken the system, so that disease cannot be thrown off. Foley's Honey and Tar Compound has eased coughs, colds and croup for three generations; safe to use and quick to act. There is no better medicine for croup, coughs and colds. Sold everywhere.

LITTLE DOING IN COURT

Business Drags In Circuit Tribunal This Week—A Few Cases Tried.

There has been very little doing in circuit court this week. For some reason or other, few cases were ready for trial when court convened and very little has been done since court started in Monday. Business is expected to pick up today when several cases are set for trial, among them a number of whisky cases. The grand jury has been sitting all week, during the recess upstairs and has been examining many witnesses.

Early in the week Caspar Aht, a well known German near Ottenheim, compromised a number of cases against him, upon indictments charging him with having been in his possession for purposes of sale. He paid \$150 into court in settlement of the cases.

George Howard was fined \$50 and costs for cutting Henry Poyner in a scarp near Pine Grove one night a few weeks ago.

Jake Wilson was found not guilty on a charge of selling booze.

According to the officials practically all of the cases on the docket are short and of minor importance and could be tried within a very short time if they could be gotten ready.

NEW PICTURE MACHINE

Installed By Opera House to Provide Better Pictures for Patrons

In keeping with his custom of giving his patrons the best that is going, Manager C. Hays Foster, of the Stanford Opera House, has just purchased another moving picture machine, which is said to be the very best in such machinery and will project the "movies" on the screen in better shape than anything of the kind in a town this size in the state. Mr. Foster has bought a Powers 6-A machine which is driven by an electric motor, which insures perfect continuity and smoothness of picture which is impossible to obtain with the hand-run machines. Mr. Foster will still operate his old machine, so that there will hereafter be no tedious interim between pictures, or reels, and merging into the other without break or interruption. The new machine will project pictures four nights a week, Monday, Thursday, Friday and Saturday and after the Commencement exercises are concluded next week, plans to have shows every night. The people of Stanford are turning out in larger numbers to the picture shows, and Manager Foster is endeavoring to show his appreciation of the constantly increasing patronage by giving the very best productions possible to obtain. A great deal of favorable comment has been heard upon the presentation of the mammoth production of the picture show, the "Lionel Lincoln" in the stellar role, which was shown under the auspices of the ladies of the Presbyterian church last Friday evening.

Thos. W. Varnon Chosen Police Judge

Thomas W. Varnon, son of Judge Wallace E. Varnon, for many years a resident of this city, has been chosen substitute police judge of Asheville, N. C., by the commissioners of that city. The election was unanimous. An Asheville paper has this to say about the young man who has many talents and well versed in this city: "Mr. Varnon is one of the younger attorneys of Asheville, having been engaged in the practice of law here but a few years. He is a graduate of Washington and Lee university and pursued his law course at the same institution. He has met with much success in the practice of his profession at this city and has frequently been mentioned as the probable choice of the commissioners in the selection of the substitute judge of the city police court."

10,000 Gallons of Road Oil Here

Ten thousand-gallon tank of road oil here arrived here from the fields at Salt Lick, consigned to the city of Stanford. The oil will be applied to the streets just as soon as they dry off sufficiently or it quits raining. Mayor Florence made a test of the oil on Depot street for a short distance, Thursday and the oil spread nicely. The rain Thursday night will prevent any further application today however. Just as soon as the thoroughfares dry sufficiently, work of putting the oil on the streets will begin.

J. J. Thompson's Will Probated

The will of J. J. Thompson, who died last November, has been probated a month or so ago, was probated at Lancaster Monday. It leaves his widow the home place with 100 acres to be hers absolutely as long as she remains a widow. To his youngest daughter, Lucile he gives \$500 in cash and she is to share equally with the other children the remainder of his estate. James H. and J. Frank Thompson are made executors under the will.

Beautiful Lesson In History

The Interior Journal has gotten out a booklet of views along the Wilderness Road, hereafter to be known as the "Way, which is a little gem in typography, as well as artistically. Logan's Fort, Gov. Shelby's home; the home of Gen. William Whitley, the Indian fighter, the first brick house built in Kentucky, and other pictures of great interest are embodied, making it a really beautiful lesson in history.—The Lexingtonian.

Mt. Sterling Dry

For the first time in a quarter of a century, Mt. Sterling is dry, the snow being cleared for the last time on Tuesday night. The old topographers will have to attend court at Lexington now, as an excuse to get booze.

S. H. S. ALUMNI ORGANIZE

Arrangements Made for Annual Banquet and Officers Elected.

At a meeting of the Alumni of the Stanford High School, on Wednesday morning at 10 o'clock, it was decided that an Alumni banquet would be given, about the first week in July, when all of the Alumni, who are away from home, will be here. This will be the first banquet of this kind given in this city and it promises to be a great affair in every way.

The meeting was called to order by Miss Emma Hays and after a few remarks as to the purpose of the meeting and a few suggestions, the officers were chosen who will serve until the evening of the banquet, when permanent officers will be elected. They are as follows: President, James Cooper; Vice-President, Joseph Hill; Secretary and Treasurer, Thomas P. Bright. The committees which were appointed are: Committee on By-Laws, Misses Sallie Rurdtte, Lissa Holtzclaw and Emma Hays; Committee on Arrangements, Misses Sallie M. Craig, Mary Moore Roney and Harvey Wilkinson; Committee on Menu, Misses Emma Hays, Verna Rount and Willie Moore.

Prof. J. W. Ireland, who was principal of the High School, when most of the Alumni graduated, has been invited to be toastmaster on this occasion and it is hoped by all, that he will make his arrangements to be here for his presence would add much to the affair.

All the Alumni will be written to in regard to the banquet by the secretary in a few days as to the time, that best suits them. It is hoped that all will endeavor to come home at this time and make it an affair to be long remembered. It is desired to make the Alumni Banquet an annual affair.

Each class is to be represented by one member, who is to give a brief sketch of the class on the evening of the banquet.

LATEST WAR NEWS

The British battleship Majestic supporting the allied army on the Gallipoli peninsula, was torpedoed and sunk by a German submarine. Nearly all the crew and officers were saved. The Majestic is the sixth capital ship lost by the Allies in the Dardanelles.

King Victor Emmanuel has taken command of the military and naval forces, and is en route incognito to the front. The Italians who have crossed the Austrian frontier to the east, along a front of sixty miles to the Isone river, have not yet met with any serious opposition. In fact no important battle is expected until the invaders reach the river, as it is here that the Austrians are established.

The British battleship Triumph has been sunk in the Dardanelles, according to official announcement made last night.

Although called upon to face another enemy in Italy, whose troops have crossed the eastern border, the Austrians and Germans have not relaxed their efforts on the other fronts. In Middle Galacia they have resumed the offensive against the Russians along the River San, and claim to have met with further success, while in Flanders and Artois the Germans continue, according to the French report, to make furious attacks to regain ground lost in recent weeks and to hold that which they took from the British in the region of Ypres.

Except for the German admission that the British have captured part of their trenches to the north east of Givenchy, the reports of the belligerent headquarters continue to contradict each other, one side claiming gains, while the other says that all attacks were repulsed with heavy losses. So far as the west is concerned, however, the fighting, as has been the case for months, consists largely of trench warfare.

Washington officials are awaiting a full examination of the steamer Nebraskan to be made when it reaches port before expressing any opinion in the case. At present it is not known whether the American-owned steamer was torpedoed or hit by a mine. The vessel under convoy and its own power, is proceeding toward Liverpool.

Graduating Exercises of Stanford High School Prove Entertaining and Attractive This Week

Eighteen young men and women received their sheepskin diplomas from the Stanford High School on Wednesday night and are now full fledged graduates, and out upon the world either for pursuit or further education in higher channels or to settle in the usual vocations of life.

Almost the entire week has been occupied with the closing exercises of the local educational institution and those who have attended the exercises pronounce the Commencement programs this year, perhaps the most attractive and interesting that has ever been held in Stanford or at least in many years.

Rev. O. J. Chandler, of Lexington preached the baccalaureate sermon to a large congregation at the opera house on Sunday night. The music was a special feature of the program. Rev. Chandler's word of advice and admonition addressed particularly to the members of the graduating class were peculiarly well chosen and timely. He pleased everyone with his discourse.

Mention has already been made of the Bach Club recital on Monday evening.

The most original, unique and entertaining class play entertainment probably ever seen in Stanford was presented by the 18 Seniors Wednesday night. Under the clever coaching and instruction of Miss Esther Burk, the graduates staged a picnic scene, with each at his or her ease and with a naturalness that made the affair most delightful. The stage was decorated with branches, stumps, leaves, etc., until it fitly represented a sylvan dell, and the lunch baskets and other picnic accessories made the illusion complete. In this informal way and in clever conversation, the members of the class gave their Grumbles, Gifts, Prophecies, Wills, Songs and Toasts, to the delight of everyone.

The evening was a most attractive one from beginning to end; its originality and cleverness made it stand out alone in class day events and to the genius and untiring energy of Miss Esther Burk, of the Expression department of the school, is due chief credit for the beautiful and original effects and results obtained. The local school is fortunate in having such a talented teacher in its faculty.

Wednesday evening, the graduates were in formal behavior and appeared to best advantage in their "best bib and tucker" as they sat on the stage during the final exercises of graduation. An attractive musical program was rendered. Prof. Farquhar, of State University, substituted for Dr. J. G. Crabbe, of Richmond, with the address to the graduates, after which diplomas were delivered by Supt. W. C. Wilson, to the following graduates: Misses Bessie Moore, Sallie M. Craig, Kittie Jones, Mary Jones, Gertrude Wilkinson, Mary Moore Roney, Bettie Warren, Anne Davis McRoberts, Kate Lynn Wood, Verna Rount, Mary Shepherd Cook, Mary Ellen Holtzclaw and Mayme Singleton and Messrs. Boyce Huum, Harvey Wilkinson, Will Wood, Clinton Coleman, and Harry Farmer.

Commencement closed on Thursday night with the annual recital of the music and expression departments mention of which will be given in a separate article.

The public and the administration
were both shocked by the news of the
torpedoing of the American steam-
ship, Nebraska, in the war zone. The
incident not only suggested that Ger-
many has not ceased submarine war-
fare but caused especial comment in
that it involved attack on a craft fly-
ing the American flag, on its way to
a home port, so that there could
have been no suspicion that it was
carrying goods to allies. One of the
dispatches says that the ship had
hailed down her flag a few moments
before she was struck, but this may
or may not be true. The ship's name
was painted on her sides in box car
letters, which could be read for miles,
and there are many other reasons
why the crippling of it can not be
rightfully claimed as accidental or an
error. Germany seems to be doing
her damndest to involve this country
in war, and if she goes much further
with her deviltry, success will crown
her efforts. Cool, conservative, pa-
tient and forbearing, President Wilson
cannot stand any and all insults
and he may be expected to act if
Germany continues her dastardly
course toward the United States.

The second conviction of Police
Lieutenant Charles Becker, for insti-
gating the murder of Herman Rosen-
thal, New York gambler, was upheld
by the Court of Appeals, and he
must die now unless he can obtain
executive clemency from Gov. Whit-
man, who as district attorney of New

to be, he should die, and the quicker
he is put to death the better off the
country will be.

The Elkton Times says that Editor
Harry Sommers of the Elizabethtown
News could have been elected gov-
ernor by 30,000. Much as we love
him we are going to give our whole
opinion about the matter, whether it
is sought or not, and that is that
neither Sommers nor any other dem-
ocrat who sets himself up as opposed
to the democratic principle of giving
the people a vote on as important an
issue as state-wide prohibition, can be
elected governor of Kentucky.

The Knights Templar edition of the
Danville Messenger is a "peach."
There are twenty pages of it, printed
on highly calendared book paper and
each page brimful of interesting mat-
ter, profusely illustrated. It is a
credit not only to the Messenger of-
fice but to the little city in which it
was gotten out. From a historic
standpoint the edition is almost in-
valuable.

Charles H. Milliken was defeated
for president of the Travelers Pro-
tective Association at the State meet-
ing held in Paducah, Paul Winn, of
Hopkinsville, being the successful can-
didate. Mr. Milliken was nominated
for the democratic nomination for Sec-
retary of State and his opponents are
wondering if this isn't an off year
with him and if defeats like railroad
wrecks, won't come in trios.

HIGH OFFICIALS

TAKING TANLAC

Judges, Mayors and Prominent Busi-
ness Men Try Premier
Preparation.

Lexington, Ky., May 27.—"I have
sold Tanlac since the beginning of its
introduction in Lexington, to the
Mayors, Circuit Judges and to many
of the most prominent business men
and professional men in Kentucky,"
said Wm. E. Stagg, the Lexington
druggist.

The demand for the preparation
has been phenomenal. In all of my
twenty years' experience in the drug
business I have never seen anything
to equal it.

"In addition to the Lexington de-
mand, Tanlac has been shipped from
my store to Kansas City, Mo.; Colo-
rado Springs, Colo.; Denver, Colo.;
Memphis, Tenn.; Meridian, Miss.;
Birmingham, Ala.; Louisville, Ky.;
Tiffin, Ohio; Cincinnati, Ohio; Colum-
bia, Tenn.; Palm Beach, Fla.; Phoenix,
Ariz.; Los Angeles, Cal., and many
other points too numerous to mention.
You may rest assured that every city
in Kentucky all judges and Tanlac
businessmen I have never seen anything
to equal it."

"I can only account for the great
demand for this preparation by the
fact that it is a good medicine. That
is proved by the numerous statements
from those who have tested the medi-
cine and are now convinced of its ex-
cellent merits. The public has ex-
actly not been slow to appreciate the
Tanlac merit."

"Practically \$20,000.00 worth of
Tanlac has been sold and distributed
through my store within the past few
weeks. Such a demand is most cer-
tainly unprecedented."

My associations with Mr.
Cooper and the agency for Tanlac has
been very pleasant. I therefore take
pleasure in commending Mr. Cooper
and his very excellent preparation."

sale in Stanford at Penny's Drug
Store, where it is being introduced here.

He purchased them in the Knoxville and Morristown sections. Mr. Bohon has bought a large number of mules for army purposes this year. He says mules are scarcer in Kentucky than in any State he buys.

BRODHEAD.
Morris Frith came near being drowned while fording Nigger Creek at this place Wednesday afternoon. He and his wife and eight children had been out picking strawberries and the creek was swollen to such an extent when they returned that the wife and children left the wagon and walked over the stream. The wagon was washed against the bridge and he saved himself by jumping to the bridge from the overturned vehicle. One mule was drowned and the horse came very near losing his life.

Doc Haggard, who is buying railroad ties for the Harmond Tie and Lumber Co., of Chillicothe, O., has purchased 25,000 ties, 15,000 of which are in the Brodhead yards. He has about 5,000 at Gum Sulphur. The

Corn-Mad? Use "GETS-IT," It's Sure

Makes Corns Vanish Like Magic! A hard cap of skin makes up every corn. When you put 2 drops of "GETS-IT" on it, it shrivels up and comes right off—without your corn going by! Wonderful simple as taking off your hat! That's

why corn-millions have gone wild over "GETS-IT"—nothing like it ever known. Some look to this drug, better known with bandages, sticky tape, thick plasters, corn "pulling" salves, gouge corns out with knives, snip them with scissors, make them bleed and then howl because they can't get rid of sore corns. Use "GETS-IT." There's nothing to do but apply 2 drops. The work is done. "GETS-IT" does the rest. No pain, no fussing, no changing shoes, no blisters. It never fails. Try it tonight for any corn, callus, wart or bunion. Be sure that you get "GETS-IT" and nothing else.

"GETS-IT" is sold by druggists every where, or a bottle or sent direct by J. Lawrence & Co., Chicago.

price is 50 cents for white oak and 20 cents for red oak delivered at the depot at that point. It will take some 50 freight cars to move the ties.

The Knob Extract Co., which has been in operation here for some three years, is doing a big business. The prime object of the work is getting the oil from sassafras roots. It is said that the company has made considerable money out of the enterprise.

Brodhead is to have a new depot to cost \$7,000 or \$8,000. Agent J. E. Cass says the building is to be erected soon. It is needed.

Preparations are already being made for the fair, which will be held on Aug. 11, 12 and 13. J. G. Frith is President, E. H. Hamann, Vice-President, John Robbins, Secretary, A. M. Hatt, Treasurer, and R. S. Shivel, Superintendent. The directory includes some of the very best business men of that section of the county.

John Robbins and A. M. Hatt were in Louisville Tuesday, working in the interest of the enterprise. The new grounds are far better than the old ones and much closer to town.

Quite a crowd from this city attended the meeting of the fiscal court at Mt. Vernon today. They went to enter a protest against the spending of all of the \$100,000 voted for roads at the recent election on the Dixie Highway from the Madison to the Laurel line. The citizens of this section are a little uneasy lest Brodhead, which voted so strongly for bonds, may be left out, since the Dixie Highway has attracted so much attention.

W. O. Walker and Dr. W. N. Craig, of Stanford, were in the city Thursday.

Miss Etta Cable, who has entered the Interior Journal contest, is working like a Trojan to secure one of the trips offered by this paper. She will appreciate any help her friends may give her.

M. S. BAUGHMAN, Stanford, Ky.

BOSSEAU

I will stand my fine registered Percheron Bosseau at my farm on the Stanford and Hustonville pike, one mile east of Hustonville for the season of 1915 at \$10 to insure a live colt. Sir Ray is a beautiful chestnut horse, 7 years old, 16 1/2 hands high, weighing 1,650 pounds; great style and action. He is a great breeder and sure foot getter. As an individual and a breeder, he is in a class by himself. He has made two seasons in this county, at Crab Orchard and all of his colts are high class. Sir Ray is by Honest Tom 40701, and is bred right all through.

B. W. GAINES, R. F. D. 1, Stanford

He is a superb breeder as his colts will show for themselves. Prestolight, one of his colts went a mile last year at Lexington in 2:11 1-2 and another in Ohio in 2:10. No other horse ever stood at an low a price with two colts in the ten list. Don Varrick is by Onward Silver 2:05 1-4; 1st dam by Wilkes Boy 2:24; 2nd dam by Bogg's Grey Eagle. Don Varrick has plenty of speed, having shown quarters in 34 1-2 seconds and went half mile at Danville on 1-2 mile track in 1:10. He has a splendid disposition which he imparts to his colts. All his colts are prompt drivers, full of vim. They need no whip. See him before breeding elsewhere. He will take your eye and you will make no mistake in breeding to him.

KENTUCKY GENTLEMAN

No. 5167 A. S. H. R.

is a handsome chestnut with beautiful mane and tail; is 15 1/2 hands and will weigh about 1,150 pounds; has the very best of feet and legs; good flat bone, broad sloping shoulders; short, stout hack and a horse of the most wonderful endurance. He is an impressive horse, standing still and is more so in motion; sets himself just right, never touches himself any where and has exceptional speed at the rack and trot. He was one of the most successful horses shown last year. He was shown at three fairs and won the combined stallion class at each place.

Kentucky Gentleman has the qualities that are necessary to the production of a perfect horse—color, size, style, speed, action, and endurance, and ideal breeding. He is sired by Chester Peavina 3184, by Rex Peavine 1796, by Rex McDonald 833. Dam, Flora Carter 8416, by Red Squirrel 53, by Black Squirrel 58, by Black Eagle 74, by King William 67.

In offering the services of this grand young horse to the public, I feel that I am giving them their money's worth. Give him the same class of mares and I do not believe there is a horse in the State that will heat him producing high class colts, (no matter how high the service fee.) Breeding to Kentucky Gentleman is no longer an experiment. Bring him a good mare and he will get you an extra good colt. Do not take your mares thirty or forty miles to breed when you have just as good a horse right at home and for less than half the money.

Kentucky Gentleman will make the season at my home, one mile from Stanford, on the Danville pike at \$20.00 to insure a living colt. Money due when colt is foaled. Care taken to prevent accidents, but not responsible should any occur.

Voltaire 55140

There is no doubt about Voltaire being the best breeding as well as the best bred big horse in the county and possibly in the State. Each time he has been shown he has easily won first premium and his colts have won first every year they have been shown. There has been more demand for big horses within the last year than was ever known before. Quite a good many farmers have almost stopped raising horses and that is sure to make a demand for them. Nearly every farm paper you see advises the farmer to raise bigger and better horses. I think right now is the farmer's opportunity. Bring your good mares to Voltaire and you are sure to get a good colt. He will make the season at my farm, one mile from Stanford on the Danville pike at \$15.00 to insure a living colt. Money due when colt is foaled. I will also stand a good young Jack. He is a heavy big boned fellow, and I think will make a good breeder. Will stand at \$10.00 to insure.

TOLBERT.

Register 5692
Foaled July 8, 1911, will make the season at our barn at Moreland at \$10 to insure a live colt. Season due when colt is foaled or mare parted with or moved from the county.

Tolbert is a black jack with white points, 15 1-2 hands high, heavy bone, good feet and perfect in every respect. He made his first season in 1914 and is proving to be a wonderful sire, some of his colts having arrived and measure from 3 feet 3 1-2 inches, to 3 feet 6 inches, and built in proportion. It will pay you to investigate Tolbert and his colts before breeding your mares. Will endeavor to avoid all accidents but will not be responsible should any happen.
